* Each model school consists of three departments, viz. Boys, Girls, and Infants.

† In the year 1874–75, for which this Return is made, the oral examination of the third class and probationary teachers, previously conducted by the head and district inspectors, was entrusted, as an experiment, to the district inspectors alone. The plan was not found to answer, and the former practice has been resumed. Hence the number of days in the Return devoted to the examination of teachers is much smaller than that ordinarily required for this duty.

‡ Inspectors' vacations are computed with reference to the calendar year; and it may happen, as has occurred in some of the foregoing cases, that the whole or greater part of the vacations of two calendar years will fall within the same financial year.
